**CHAPTER 1: Introduction to Cost and Management Accounting**

Finance and accounting have assumed much importance in today's competitive world of business wherein corporate organizations have to show a true and fair view of their financial position. Thus, the application of accounting in the business sector has become an indispensable factor. Company Secretary has to provide complete and accurate information about the financial operations of the company to management for decision-making. This emphasizes that the books of account are to be maintained accurately, up-to-date, and as per the norms. The subject 'Cost and Management Accounting' is very important and useful for optimum utilization of existing resources.
