### Principles General Grievance Cell

The following principles will apply to the application of this procedure: -

1. Wherever possible grievances should be resolved informally without recourse to formal procedures. It is expected that individuals will enter into the procedure in good faith, with the aim of resolving a particular issue. The grievance procedure should not be used as a substitute for normal day to day discussions.
2. It is recognised that there may be occasions when it is not possible for a grievance to be resolved informally. In such cases the procedure below at Stage 1 should be followed. All parties should be absolutely clear whether any meeting is being held under the informal or formal stage of the procedure.
3. Any steps taken under this procedure should be taken promptly, unless there is a good reason for delay.
4. At any stage in the procedure, subject to the agreement of all parties concerned, there may be a suspension in proceedings to facilitate mediation (see 3 below), fact-finding or other non-adversarial discussions with the aim of promoting resolution of the case.
5. At any stage in the procedure, the manager dealing with the grievance may, at his/her discretion, defer consideration of the grievance if other activities which are relevant to the substance of the grievance are pending or in progress. In such cases the parties to the grievance will be advised of the reason for deferring consideration.
6. If, on investigation, the grievance is found to be vexatious or trivial the person may be punished without further consideration. The students & employees will be advised accordingly.
7. The DYPIMED may, with the policy of the employee, vary this procedure as appropriate to a particular case. In the event that it becomes impracticable to

8. **Right to be accompanied:** All students and employees who are the subject of this procedure will have the right to be accompanied at any formal meetings held under this procedure by a representative or work colleague.
